DETAILED ACTION

1. This Office Action is response to the Application filed on 12/24/2003. Claims 1-11 are currently pending and being examined.

Allowable Subject Matter

2. Claims 1-11 are allowed.

Reason for Allowance

3. The present invention related to driving method and apparatus for a plasma display panel having a unit light emission cell which consist of a first discharge cell and a second discharge cell and that divides the display period of one field into a plurality of subfields. Each independent claim identifies the uniquely distinct features:

“an address part that sequentially applies a positive scan pulse to a first row electrode of each of the row electrode pairs in the address cycle while sequentially applying a pixel data pulse corresponding to the pixel data at the same timing as the scan pulse to each of the column electrodes one display line at a time so that the column electrode side constitutes a cathode, such that an address discharge is selectively produced in the second discharge cell; and

a sustain part that applies a sustain pulse to each of the row electrodes constituting the row electrode pairs in the sustain cycle,

wherein the sustain part applies the ultimate sustain pulse of the sustain pulses applied in the sustain cycle to the first row electrode with a negative polarity.”

The closest prior arts of Otani et al. (U.S Patent No. 6,674,238) and Kato et al. (U.S Patent No. 6,528,952) show similar systems, which also have first and second discharge cells for a pixel display region and one field displaying period is divided into a plurality of subfield period, but either singularly or in combination, fail to anticipate or render above quoted limitations obvious.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to DUC Q DINH whose telephone number is (571) 272-7686. The examiner can normally be reached on Mon-Fri from 8:00.AM-4:00.PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Hjerpe can be reached on (571) 272-7691. The fax phone number for the organization where this application or proceeding is assigned is **571-273-8300**.
